Alameda: Children Entering and Exiting Foster Care

Los Angeles: Children Entering and Exiting Foster Care

Notes: Data are limited to children in foster care for eight days or more. Children entering or exiting care more than once during the period are counted once. These data include child-welfare-supervised foster children (and exclude those supervised by probation and other agencies). An exit is defined as the end of a foster care placement episode, not necessarily termination of jurisdiction. See endnotes for more information.

*Listed years represent end year of interval. For example, interval Jul 1-Jun 30 and year 2006 represents data from Jul 1, 2005-Jun 30, 2006.

Alameda: Children Exiting From Foster Care to Emancipation

Los Angeles: Children Exiting From Foster Care to Emancipation

Notes: These data include child-welfare-supervised foster children (and exclude those supervised by probation and other agencies). Children exiting care more than once during the period are counted once. These data include children regardless of length of stay in foster care. See endnotes for additional information.

*Listed years represent end year of interval. For example, interval Jul 1-Jun 30 and year 2006 represents data from Jul 1, 2005-Jun 30, 2006.

3. Children Entering and Exiting Child Welfare Supervised Foster Care	
Notes:	<p>Children Entering and Exiting are child-level counts. Children entering care more than once during the period are counted once in entries. Similarly, if a child exits foster care more than once during the period he or she is counted once. These analyses can be replicated on the dynamic site using the 'All Children Entering' and 'Children Exiting' options.</p> <p>Note: With the Quarter 1, 2012 CWS/CMS Data Extract, the age range for children entering was extended from 0 to 17 years to 0 to 20 years. The age range for children exiting is 0 to 20 years.</p>

4. Children in Child Welfare Supervised Foster Care, by Placement Type	
Notes:	<p>Placements are grouped into three categories: placements in family settings, placements in congregate care, and other placements. Family settings include Kin, County, Foster Family Agency (FFA), Guardian Dependent (Guard.-Dep.), and Pre-Adopt. Placements in congregate care include Group Home and Shelter. Other placements include Court Specified, Non-Foster-Care, Transitional Housing, Guardian - Other, Runaway, Trial Home Visit, SILP, and Other.</p> <p>Foster Family Agencies (FFAs) are private, nonprofit corporations that certify and provide placements for children in foster family homes. FFAs assign their own social workers to provide services to children and foster parents. For children placed in FFAs, county social workers retain case management responsibilities, including reports and recommendations to the juvenile dependency court. Although counties are required to find placements based on the child's needs, some counties turn to facilities such as FFAs due to a lack of alternative placement resources in other less restrictive facilities.</p>

6. Median Time in Months from Latest Removal to Reunification For Exits to Reunification from Child Welfare Supervised Foster Care	
Notes:	This measure computes the median length of stay for children exiting to reunification. Length of stay is calculated as the date of discharge from foster care minus the latest date of removal from the home. Children in foster care for less than 8 days were excluded from the median calculation. Discharge to reunification is defined as an exit from care to parents or primary caretaker(s) and includes the following placement episode termination reason types: <ul style="list-style-type: none"> • Reunified with Parent/Guardian (Court) • Reunified with Parent/Guardian (Non-Court) • Child Released Home If a child is discharged to reunification more than once during the specified year, the latest discharge to reunification is considered.

7. Percent of Children Reentering Child Welfare Supervised Foster Care in Less than Twelve Months For Exits to Reunification from Child Welfare Supervised Foster Care	
Notes:	This measure computes the percentage of children reentering foster care within 12 months of a reunification discharge. The denominator is the total number of children who exited foster care to reunification in a 12 month period; the numerator is the count of these reunified children who then reentered care within 365 days of the reunification discharge date. Discharge to reunification is defined as a discharge to parents or primary caretaker(s) and includes the following CWS/CMS subcategories: <ul style="list-style-type: none"> • Reunified with Parent/Guardian (Court) • Reunified with Parent/Guardian (Non-Court) • Child Released Home If a child is discharged to reunification more than once during the specified year, the first discharge to reunification is considered.

<p>8. Median Time in Months from Latest Removal to Adoption For Exits to Adoption from Child Welfare Supervised Foster Care</p>	
Notes:	This measure computes the median length of stay for children exiting to adoption. Length of stay is calculated as the date of discharge from foster care minus the latest date of removal from the home. Only placement episodes ending in adoption are included.

<p>9. Percent Exiting Placement to Permanency Over Time by Exit Type For Children Entering Child Welfare Supervised Foster Care for the First Time October 1, 2009 to March 31, 2010 Total Relative Placement Non-Relative Placement</p>	
Notes:	<p>Exits are based on end dates for placement episodes. Generally, exits to adoption, guardianship and emancipation coincide with termination of jurisdiction. Exits to reunification remain as open court cases if families are receiving court ordered post-placement family maintenance services.</p> <p>The division into exits from relative and non-relative placements corresponds to the following filter options:</p> <ul style="list-style-type: none"> • Relative Placement = Last Caregiver Relationship: Relative Guardian, Relative Nonguardian • Non-Relative Placement = Last Caregiver Relationship: Nonrelative Guardian, Nonrelative Nonguardian

Alameda: Children Entering and Exiting Foster Care

Los Angeles: Children Entering and Exiting Foster Care

Notes: Data are limited to children in foster care for eight days or more. Children entering or exiting care more than once during the period are counted once. These data include child-welfare-supervised foster children (and exclude those supervised by probation and other agencies). An exit is defined as the end of a foster care placement episode, not necessarily termination of jurisdiction. See endnotes for more information.

*Listed years represent end year of interval. For example, interval Jul 1-Jun 30 and year 2006 represents data from Jul 1, 2005-Jun 30, 2006.

Note: These data are limited to cases in which a child spent eight days or more in foster care. An exit to reunification may or may not correspond with termination of jurisdiction. Exits to reunification remain as open court cases if families are receiving court ordered post-placement family maintenance services. See endnotes for additional information.

*Listed years represent end year of interval. For example, interval Jul 1-Jun 30 and year 2006 represents data from Jul 1, 2005-Jun 30, 2006.

Notes:	<p>Children Entering and Exiting are child-level counts. Children entering care more than once during the period are counted once in entries. Similarly, if a child exits foster care more than once during the period he or she is counted once. These analyses can be replicated on the dynamic site using the 'All Children Entering' and 'Children Exiting' options.</p> <p>Note: With the Quarter 1, 2012 CWS/CMS Data Extract, the age range for children entering was extended from 0 to 17 years to 0 to 20 years. The age range for children exiting is 0 to 20 years.</p>

4. Children in Child Welfare Supervised Foster Care, by Placement Type	
Notes:	<p>Placements are grouped into three categories: placements in family settings, placements in congregate care, and other placements. Family settings include Kin, County, Foster Family Agency (FFA), Guardian Dependent (Guard.-Dep.), and Pre-Adopt. Placements in congregate care include Group Home and Shelter. Other placements include Court Specified, Non-Foster-Care, Transitional Housing, Guardian - Other, Runaway, Trial Home Visit, SILP, and Other.</p> <p>Foster Family Agencies (FFAs) are private, nonprofit corporations that certify and provide placements for children in foster family homes. FFAs assign their own social workers to provide services to children and foster parents. For children placed in FFAs, county social workers retain case management responsibilities, including reports and recommendations to the juvenile dependency court. Although counties are required to find placements based on the child's needs, some counties turn to facilities such as FFAs due to a lack of alternative placement resources in other less restrictive facilities.</p>

6. Median Time in Months from Latest Removal to Reunification For Exits to Reunification from Child Welfare Supervised Foster Care	
Notes:	This measure computes the median length of stay for children exiting to reunification. Length of stay is calculated as the date of discharge from foster care minus the latest date of removal from the home. Children in foster care for less than 8 days were excluded from the median calculation. Discharge to reunification is defined as an exit from care to parents or primary caretaker(s) and includes the following placement episode termination reason types: <ul style="list-style-type: none"> • Reunified with Parent/Guardian (Court) • Reunified with Parent/Guardian (Non-Court) • Child Released Home If a child is discharged to reunification more than once during the specified year, the latest discharge to reunification is considered.

7. Percent of Children Reentering Child Welfare Supervised Foster Care in Less than Twelve Months For Exits to Reunification from Child Welfare Supervised Foster Care	
Notes:	This measure computes the percentage of children reentering foster care within 12 months of a reunification discharge. The denominator is the total number of children who exited foster care to reunification in a 12 month period; the numerator is the count of these reunified children who then reentered care within 365 days of the reunification discharge date. Discharge to reunification is defined as a discharge to parents or primary caretaker(s) and includes the following CWS/CMS subcategories: <ul style="list-style-type: none"> • Reunified with Parent/Guardian (Court) • Reunified with Parent/Guardian (Non-Court) • Child Released Home If a child is discharged to reunification more than once during the specified year, the first discharge to reunification is considered.

Exits to reunification remain as open court cases if families are receiving court ordered post-placement family maintenance services.</p> <p>The division into exits from relative and non-relative placements corresponds to the following filter options:</p> <ul style="list-style-type: none"> • Relative Placement = Last Caregiver Relationship: Relative Guardian, Relative Nonguardian • Non-Relative Placement = Last Caregiver Relationship: Nonrelative Guardian, Nonrelative Nonguardian

Alameda: Children Entering and Exiting Foster Care

Los Angeles: Children Entering and Exiting Foster Care

Notes: Data are limited to children in foster care for eight days or more. Children entering or exiting care more than once during the period are counted once. These data include child-welfare-supervised foster children (and exclude those supervised by probation and other agencies). An exit is defined as the end of a foster care placement episode, not necessarily termination of jurisdiction. See endnotes for more information.

*Listed years represent end year of interval. For example, interval Jul 1-Jun 30 and year 2006 represents data from Jul 1, 2005-Jun 30, 2006.

3. Children Entering and Exiting Child Welfare Supervised Foster Care	
Notes:	<p>Children Entering and Exiting are child-level counts. Children entering care more than once during the period are counted once in entries. Similarly, if a child exits foster care more than once during the period he or she is counted once. These analyses can be replicated on the dynamic site using the 'All Children Entering' and 'Children Exiting' options.</p> <p>Note: With the Quarter 1, 2012 CWS/CMS Data Extract, the age range for children entering was extended from 0 to 17 years to 0 to 20 years. The age range for children exiting is 0 to 20 years.</p>

4. Children in Child Welfare Supervised Foster Care, by Placement Type	
Notes:	<p>Placements are grouped into three categories: placements in family settings, placements in congregate care, and other placements. Family settings include Kin, County, Foster Family Agency (FFA), Guardian Dependent (Guard.-Dep.), and Pre-Adopt. Placements in congregate care include Group Home and Shelter. Other placements include Court Specified, Non-Foster-Care, Transitional Housing, Guardian - Other, Runaway, Trial Home Visit, SILP, and Other.</p> <p>Foster Family Agencies (FFAs) are private, nonprofit corporations that certify and provide placements for children in foster family homes. FFAs assign their own social workers to provide services to children and foster parents. For children placed in FFAs, county social workers retain case management responsibilities, including reports and recommendations to the juvenile dependency court. Although counties are required to find placements based on the child's needs, some counties turn to facilities such as FFAs due to a lack of alternative placement resources in other less restrictive facilities.</p>

6. Median Time in Months from Latest Removal to Reunification For Exits to Reunification from Child Welfare Supervised Foster Care	
Notes:	This measure computes the median length of stay for children exiting to reunification. Length of stay is calculated as the date of discharge from foster care minus the latest date of removal from the home. Children in foster care for less than 8 days were excluded from the median calculation. Discharge to reunification is defined as an exit from care to parents or primary caretaker(s) and includes the following placement episode termination reason types: <ul style="list-style-type: none"> • Reunified with Parent/Guardian (Court) • Reunified with Parent/Guardian (Non-Court) • Child Released Home If a child is discharged to reunification more than once during the specified year, the latest discharge to reunification is considered.

7. Percent of Children Reentering Child Welfare Supervised Foster Care in Less than Twelve Months For Exits to Reunification from Child Welfare Supervised Foster Care	
Notes:	This measure computes the percentage of children reentering foster care within 12 months of a reunification discharge. The denominator is the total number of children who exited foster care to reunification in a 12 month period; the numerator is the count of these reunified children who then reentered care within 365 days of the reunification discharge date. Discharge to reunification is defined as a discharge to parents or primary caretaker(s) and includes the following CWS/CMS subcategories: <ul style="list-style-type: none"> • Reunified with Parent/Guardian (Court) • Reunified with Parent/Guardian (Non-Court) • Child Released Home If a child is discharged to reunification more than once during the specified year, the first discharge to reunification is considered.

<p>8. Median Time in Months from Latest Removal to Adoption For Exits to Adoption from Child Welfare Supervised Foster Care</p>	
Notes:	This measure computes the median length of stay for children exiting to adoption. Length of stay is calculated as the date of discharge from foster care minus the latest date of removal from the home. Only placement episodes ending in adoption are included.

<p>9. Percent Exiting Placement to Permanency Over Time by Exit Type For Children Entering Child Welfare Supervised Foster Care for the First Time October 1, 2009 to March 31, 2010 Total Relative Placement Non-Relative Placement</p>	
Notes:	<p>Exits are based on end dates for placement episodes. Generally, exits to adoption, guardianship and emancipation coincide with termination of jurisdiction. Exits to reunification remain as open court cases if families are receiving court ordered post-placement family maintenance services.</p> <p>The division into exits from relative and non-relative placements corresponds to the following filter options:</p> <ul style="list-style-type: none"> • Relative Placement = Last Caregiver Relationship: Relative Guardian, Relative Nonguardian • Non-Relative Placement = Last Caregiver Relationship: Nonrelative Guardian, Nonrelative Nonguardian

<p>10. Children Exiting From Child Welfare Supervised Foster Care to Emancipation</p>	
Notes:	Children Exiting to Emancipation is a child-level count. Children exiting care more than once during the period are counted once. This analyses can be replicated on the dynamic site using the 'Children Exiting' option.
