

FOUNDATION FOR CALIFORNIA COMMUNITY COLLEGES

The CDSS contracts with the Foundation for California Community College to provide a Youth Empowerment Strategies for Success Independent Living Program (YESS-ILP) via 18 community colleges throughout the state for current and former foster youth aged 16-21. In addition to empowering current and former foster youth to successfully transition into independent living, this program also has a strong focus on higher education and career training. The YESS-ILP provides youth with the access to supportive campus connections, foster youth support programs and vital life skills, increasing their ability to succeed. The Foundation for California Community College website address is
