This template is intended to be used as a guide to help counties incorporate the 2006 federal disaster response criteria as part of local child welfare plans regarding children and non-minor dependents. Children and non-minor dependents in the probation system must also be included in the plan. County plans must be amended to include Child Welfare Services (CWS) Disaster Response Plans and be operational by September 28, 2007.

In September 2006, Congress passed the Child and Family Services Improvement Act of 2006 (Public Law [PL] 109288). PL 109-288 amended Part B of Title IV of the Social Security Act to reauthorize the Promoting Safe and Stable Families Program. Among other changes, PL 109288 established requirements for states on disaster planning in child welfare under section 6 (a)(16). Accordingly, counties are requested to address the following program areas in developing local disaster readiness plans.
