This template is intended to be used as a guide to help counties incorporate the 2006 federal disaster response criteria as part of local child welfare plans regarding children and non-minor dependents. Children and non-minor dependents in the probation system must also be included in the plan. County plans must be amended annually to include Child Welfare Services (CWS) Disaster Response Plans.

In September 2006, Congress passed the Child and Family Services Improvement Act of 2006 (Public Law [PL] 109-288). PL 109-288 amended Part B of Title IV of the Social Security Act to reauthorize the Promoting Safe and Stable Families Program. Among other changes, PL 109-288 established requirements for states on disaster planning in child welfare under section 6(a)-(16) and Welfare and Institutions Code Section 16500.1(c)(1). Accordingly, counties are requested to address the following program areas in developing local disaster readiness plans.

CHILD WELFARE SERVICES DISASTER RESPONSE PLAN TEMPLATE

| CWS Disaster Response Criteria A: | Identify, locate, and continue availability of services for CWS children, Probation children, non-minor dependents, including non-minor dependents residing in foster care, out-of-county placements, children placed in or out of California through the Interstate Compact on the Placement of Children (ICPC), out-of-state non-minor dependents under county care or supervision who are displaced or adversely affected by a disaster: |
### Essential Function:
1. Identification and location process of CWS children, Probation children, non-minor dependents, including those in probation residing in foster care, out-of-county placements, ICPC children, and out-of-state non-minor dependents who may be displaced.

### Process Description:
**CPS**

Child Protective Services (CPS) shall identify foster children, probation children and non-minor dependents (NMDs) living in the disaster area(s) or impacted area by zip code using the following tools and methods:

- SafeMeasures – reports and emergency mapping function
- Social workers and probation officers identify medically fragile children on their individual caseloads
- Geographic Information System (GIS) may also be used to map the residences of foster children, probation children and NMD youth

There are four CPS Division Managers who are designated as liaisons to the CPS Department Operations Center (DOC) Responder in the event of a disaster and each assumes a primary role as a Dependent Children Liaison, Emergency Resources Liaison or Communications Operations Liaison. Each liaison has specific pre-designated areas of responsibility to ensure continued operations and child safety.

The CPS Dependent Children Liaison to the CPS DOC Responder is primarily responsible for overseeing the identification of dependent children, probation children and NMD youth in the impacted area(s), identifying children with critical needs, and creating and maintaining a list of evacuated children and NMD youth and their locations. The CPS Emergency Resources Liaison to the CPS Emergency Operations Center (EOC) Responder Representative is primarily responsible to fulfill these roles as they relate to non-dependent children receiving CPS services.

#### Probation

For children placed in out of home care, Probation uses an electronically generated report from Probation’s case management system (PIP) which provides the minor’s name, date of birth, placement location with address and telephone information. The report will also provide the minor’s legal guardian and their contact information. This report also includes NMD’s. In the event identification and location is needed after hours/weekends, the duty supervisor at the Youth Detention Facility/Juvenile Hall has access to reports generated through PIP.

### Essential Function:
2. Communication process with child care providers

### Process Description:
**CPS**

The CPS toll-free line [866-410-6164] will be activated to provide emergency information. The number is available as a direct line of communication between CPS and foster parents, non-relative extended family members, relative caregivers, birth parents, group homes, foster family agencies, contract providers and the children and NMDs living in out of home care. Additionally, the Sacramento County Office of Emergency Services has a duty officer available 24 hours a day, 7 days a week and can be reached at (916) 874-4670 and info@SacOES.org.

After an emergency strikes, CPS shall contact all out of home care providers in the impacted zip code(s) to ensure the safety and well-being of the foster children and NMDs within their care. Prioritized contact will be given to foster homes with medically at-risk foster children or NMD’s located in the most heavily impacted zip code(s). If telecommunication is unavailable and/or the care provider remains unreachable, then workers will make home visits (as soon as it is deemed safe to do so) to verify the safety and wellbeing of each child or NMD.

The CPS Operations/Communications Liaison to the CPS DEOC Responder Representative is the person within CPS with primary responsibility to establish communication links with external partners during a disaster. The CPS Dependent Children Liaison to the
CPS DOC Responder works with the CPS Operations/Communication Liaison to disseminate information to childcare providers during a disaster.

**Probation**
All care providers will be contacted by landline, cell phone, faxes, face-to-face, mail, and/or law enforcement will be used. When probation children are placed in out of home care, the care providers are instructed to contact the Youth Detention Facility/Juvenile Hall (916) 876-9304 as it is a 24-hour facility who will in turn contact the Chief Deputy Probation Officer of the Placement Unit.

### Essential Function:

### Process Description:

**CPS**
