## Katie A. Semi-Annual Progress Report Instructions

The Katie A. semi-annual progress reports are required by the Implementation Plan and should include information on the delivery of services occurring during the six months immediately preceding the report. The first of these reports is due on October 18, 2013, and includes information about services delivered May 15, 2013 through August 31, 2013. Enclosures 1 and 2 provide templates for the semi-annual report to be jointly prepared by Mental Health and Child Welfare Departments and submitted electronically.

### Enclosure 1, Part A

The Mental Health Plans (MHPs) and Child Welfare Departments (CWDs) are to provide the total unduplicated numbers of subclass members, along with a breakdown of those subclass members grouped by the services being provided during the reporting period using the attached template. If the above numbers are not available, MHPs and CWDs are to provide an explanation of why they are not available and an estimated date of when the numbers will be available for each template item in Column 2 of Enclosure 1. This section (see Enclosure 1, Part A) of the progress report should build on the information counties provided in Section I of their Service Delivery Plans regarding identification of subclass members and the process used to determine their needs.

### Enclosure 1, Part B

The MHPs and CWDs are to provide an estimated projection of the number of subclass members that will be provided with Intensive Care Coordination (ICC) and Intensive Home Based Services (IHBS) by April 1, 2014, along with strategies and timelines to ensure access to ICC and IHBS, when medically necessary, and consistent with the Core Practice Model (CPM). In the column on Enclosure 1, Part B that reads "Strategy/Timeline Description," MHPs and CWDs should describe their plans for the identification of subclass children and youth who are identified in Enclosure 1, Part A, 4, 5, 6, 7 and 8 using the identifier and claiming codes for ICC and IHBS services.

### Enclosure 2

The CWDs and MHPs should provide an update to the Readiness Assessment Tool counties completed in May 2013. Describe activities related to each section during the reporting period, including actual or anticipated results. Include activities that support family-centered principles, and promote implementation of the ICC and IHBS using the CPM. Identify activities that occur jointly and those that occur separately by child welfare and mental health agencies. Include information about barriers, as appropriate, and strategies to address them. For each section, MHPs and CWDs should specify technical assistance or state support needed regarding implementation of CPM, ICC, and IHBS.
